DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 is rejected under 35 U.S.C. 102(b) as being anticipated by Korean Patent Application (1020030049323 A). The said Korean Patent Application discloses a ceiling mounted type air conditioner comprising: intake and discharge ports (17 & 18), a wind control device (30) for controlling the direction of air discharged to the discharged port – thereby discharging inherently into an outdoor room environment. Furthermore the discharge flow is deflected and exits at a controllable exit port that lifts up and down.

Allowable Subject Matter

Claims 4-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
